

# Christopher Holt

## Software Developer

I'm a creative software developer from Edinburgh, passionate about crafting innovative web experiences. I like to collaborate with people to design and build impactful applications that push boundaries and make a real difference.

## Work Experience

### VetsNow

#### Application Engineer

2022 - Current

At VetsNow, I developed software solutions, collaborated in agile sprints, and automated processes to enhance departmental efficiency

### Oxtra Ltd

#### Founder

2024 - Current

I launched a creator platform, leading product development, strategy, and marketing. This is still on going today and has a small user base.

### Charles River Labs

#### Laboratory Technician

2020 - 2021

I performed formulations on research chemicals, ensured GLP compliance, and collaborated with sponsors and QA.

### Wildheart Organics

#### Production Manager

2020 - 2021

Led a small team in production operations, maintained supplier relationships, and oversaw warehouse management.

## Education

- **Developing Solutions for Azure (Microsoft)**  
2023 - 2023  
AZ-204
- **Professional Software Development (CodeCran)**  
2023-2023  
SCQF Level 8
- **University - MChem (Strathclyde)**  
2017-2020  
Certificate of Higher Education
- **School**  
2017-2020  
Higher Chemistry - A  
Higher Physics - A  
Higher Biology - B

## Skills

- TypeScript
- React
- .NET
- Azure
- Python
- NextJS
- C#
- SQL / NoSQL
- Power Platform
- Graphic Design
- WebGL
- OAuth
- Solidity
- XML
- GraphQL
- API's
- Google Cloud
- Git

## Projects

### Insurance Process

VetsNow

Azure LogicApps, SQL, Forms, XML,

Developed an insurance administration system for VetsNow using Logic Apps, MSSQL, Jotform, XML, Twilio, FreshDesk, and SendGrid. Streamlined workflows to reduce time and costs while automating claims processing, managing over 250,000 monthly submissions.

### Desk Booking App

VetsNow

Azure, PowerApps, EntraAD

Developed a custom hot desk booking app for VetsNow using Azure, PowerApps, and EntraAD, enabling 10k+ bookings. Designed an interactive office map for real-time seating and layout visualization.

### Transcription AI

VetsNow

Azure Cognitive AI, Next, TypeScript, SQL

Developed and maintained an AI transcription solution using Azure Cognitive AI, Next Js, TypeScript, and MSSQL, optimised to save clinicians time. Integrated with a .NET application via iFrames and improved accuracy by integrating with our database for domain-specific phrases.

### Oxtra

Oxtra Ltd

Azure Cognitive AI, Next, TypeScript, SQL

Developed a SocialFi platform using TypeScript, Next.js, WebSockets, Firebase, Cloudflare, and Payment Channels, connecting fans and creators with a growing user base. Led a team to deliver scalable, impactful features in production grade application.

### Crazy Beanz

Small project

Javascript, React, Solidity, Webflow

Created and launched a solo NFT project using JavaScript, React, and Solidity smart contracts. Designed a seamless website with Webflow, fostering a community of 3,500+ members and achieved thousands in sales.
